A SEMINAR LIKE NO OTHER!

For their seminars, companies tend to look for activities that are fun, innovative and, if possible, meaningful, which is why Dans le Noir? has become a must for this type of event.

One of the unexpected benefits of darkness is that it stimulates creativity and collective intelligence. The dark provides an extraordinary level of concentration and attentiveness that you can't get anywhere else. It's the ideal place to get strong messages across!

With almost 20 years of concrete experience in social innovation, integrating disability, CSR and eco-responsibility, the experts at Dans le Noir? like to share their experience and philosophy.
